A Guide to Tax Valuations in the Collection  
of the State Library of Massachusetts

This guide was compiled to aid the researcher in using the tax valuations in the State Library's collection. The Library has valuations which list names of individuals and their property as well as those which are aggregates only. Many years also have information for towns which are now part of Maine.

The guide contains a brief overview of the contents of the valuations followed by a detailed chronological list of the towns for which the Library holds information. Many of the valuations are also available on microfilm and for these the microfilm box number is included.

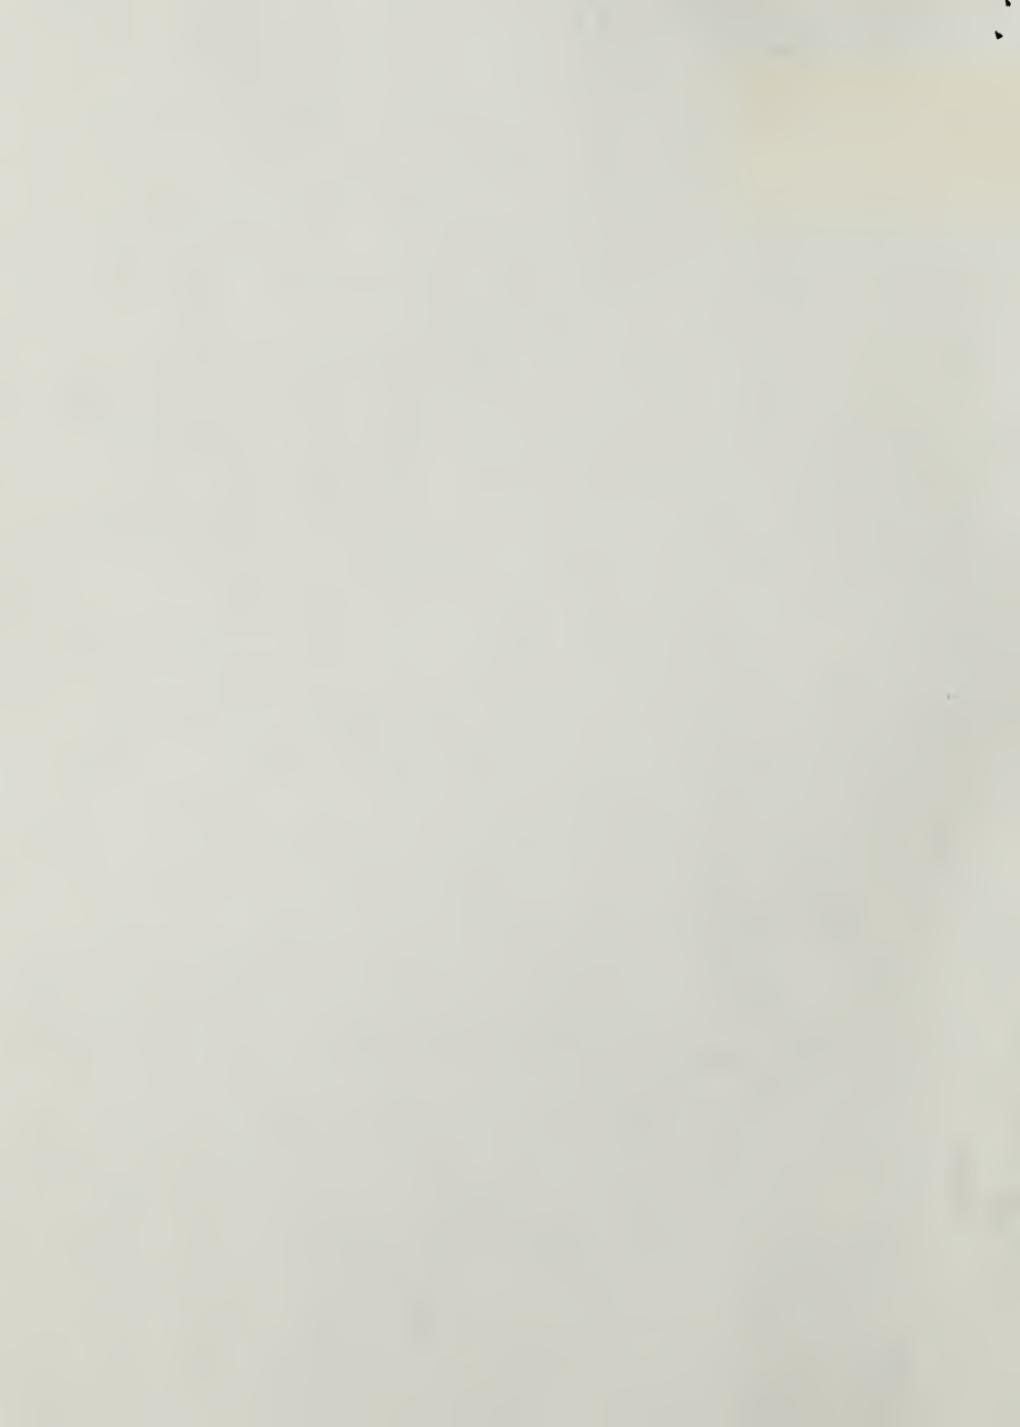

All of the valuations as well as the microfilm can be consulted in the State Library's Special Collections Department, Room 55 State House, Boston, Massachusetts 02133.
